FOR IMMEDIATE RELEASE

Vantage Software announces powerful new mobility and communications functionality in its Investor 3.0 platform to maximize fund-raising capabilities.

BOSTON, MA – February 23, 2010 – Vantage Software, a leading software solution provider for the private investment industry, is pleased to announce the availability of increased support for fund raising in its Investor 3.0 Platform. Functionality includes powerful new mobility and communications options. “Fund raising is a 24/7 effort. Focused messaging and access to the right information where and when you need it can make the difference between success and failure” says Greg Woolf, Vantage President and CEO. “At Vantage, we recognize this and empower our clients with the tools to make them successful.”

Investor 3.0 has added powerful new features designed to enhance fund raising efforts. These tools include advanced mobility options for specialized access across a wide spectrum of handheld devices, such as Blackberry Smartphones and Apple iPhones, as well as new and innovative Outlook integration options that drive maximum team productivity. Investor 3.0 also provides powerful new communication tools that allow you to drive strategy with increased control, expanding your brand while maintaining focus.

“We understand how you work and what you need to excel in today’s competitive environment” says Woolf. “It’s not about technology, it’s about information and how busy people can make best use of it. Vantage’s support for enhanced mobility and communication strategies empowers investor marketing and fund raising efforts.”

Vantage Software offers the industry’s only modular solutions that can be rapidly tailored to support the unique operations of alternative asset firms. Vantage Investor provides tools to effortlessly market to and service current and prospective investors, gaining and retaining the confidence of clients through uncompromised customer relationship management (“CRM”).
